

## Machinery and Equipment for material handling in plastics processing

Plastics  
**JETBOXX® | Drying systems**

Granulate/regrind  
**HELIO®Clean | Dedusting devices**

Big-Bag/OCTABIN  
**OKTOMAT® | Discharging stations**

HELIOS GmbH is a globally established and successful SME with more than 35 years of experience in the plastics industry. With thousands of successful installations worldwide, HELIOS develops, manufactures and markets its own products exclusively.

Our plastic **granulate dryers**, **dedusting devices** and **conveying systems** are characterised by unique technological features and are internationally protected by numerous patents and trademarks.

We are looking for

## Resale partner

1. You plan to start your own business
2. You consider sales to be your greatest strength
3. You are already an experienced employee in a sales organisation and have connections to the plastics processing industry in your country
4. You can convince your conversation partners with technical arguments
5. The user benefits to the customer are your key selling point and not the price

Talk to us.
